International Conference on  
*Signals, Machines and Automation*  
(SIGMA 2018)  
23-25 February, 2018, *Venue:* Netaji Subhas Institute of Technology (NSIT) Delhi

The International Conference SIGMA-2018 is intended to provide a common platform to the researchers to present, explore and discuss various key challenges and their probable solutions in the fields related to signals, machines and automation. It is expected to have participation from various nations offering an environment to interact with international delegates. It is an excellent opportunity for the authors to present new research results and discussion about them, leading to knowledge transfer and the generation of new ideas.

SIGMA 2018 is to be organized in association with [IOS-Press, Netherlands](#) and [Springer, Germany](#). We are having two publication options for the accepted papers of SIGMA 2018. More details are available at <http://www.nsit.ac.in/SIGMA2018/>. The conference will feature plenary/keynote talks, workshops, demonstrations, parallel technical sessions and tutorials.

**Call for Paper**

Authors are invited to submit original unpublished work that is not currently under consideration for publication elsewhere via the various tracks hosted by SIGMA 2018. Topics of interest for submission include, but are not limited to:

- [Track I: Intelligent Tools and Techniques](#)
- [Track II: Applications using Intelligent Techniques in Electrical & Energy Systems](#)
- [Track III: Applications using Intelligent Techniques in Electronics & Communication](#)
- [Track IV: Applications using Intelligent Techniques in Mechanical and Automation](#)
- [Track V: Heath care, Business Intelligence and Big Data Analytics](#)
- [Track VI: Applications using Intelligent Techniques in E-Commerce](#)

Publication Options

We plan to have two publication options for accepted and presented papers of SIGMA-2018. Selected best papers will be published as a special issue in *The Journal of Intelligent and Fuzzy Systems (SCI Impact Factor 2016: 1.261)*. Remaining papers will be published in prestigious book series of *Advances in Intelligent Systems and Computing Series (Springer, Germany)*.

The journal is indexed by Academic Source Complete, ACM Digital Library, Business Source Complete, Cambridge, Scientific Abstracts, Compendex, Computer Science Index, CSA Illumina, EBSCO databases, Google Scholar, Inspec IET, Mathematical Reviews, Microsoft Academic Search, Science & Technology Collection, **Scopus**, Ulrich's Periodicals Directory, Web of Science: Current, Contents/Engineering, Computing and Technology, Web of Science: Journal Citation Reports/Science Edition, Web of Science: Science Citation Index-Expanded (SciSearch®), Zentralblatt MATH.

Publication in the book under series ‘Advances in Intelligent Systems and Computing’ (Springer, Germany) will also be made available in SpringerLink digital library. The volumes of this series are submitted for inclusion to the leading indexing services including ISI Proceedings, EI-Compendex, DBLP, SCOPUS, Google Scholar and Springerlink.

Important Dates

Last Date for Submission: **Extended upto 25<sup>th</sup> November 2017**

Acceptance: **20<sup>th</sup> December 2017**
